

K-795™

Amscomatic's K-795 is a sophisticated high-speed automatic folding system designed to uniformly fold a wide variety of products. The user-friendly LCD keypad on the K-795 allows users to easily change fold sizes and track production rates.

The K-795 is engineered for dependable performance and low maintenance in demanding, high-production environments. This high-speed unit precisely folds shirts, pants, dresses, towels, and long sleeve garments. The K-795 can be easily integrated with other Amscomatic equipment into an automatic folding/bagging/sealing system.

Amscomatic's K-795 is solidly built of heavy-duty steel and premium components for dependable, long-lasting performance and smooth, quiet operation. Like all Amscomatic products, the K-795 automatic folder is built with Amscomatic's attention to quality, durability, and design excellence, and is backed by Amscomatic's unsurpassed service and support.

K-795
